

Thank you for downloading the “Krezie Synthwave” soundset for the TAL-U-NO-LX software synthesizer.

This soundset contains a total of 145 presets most suited for synthwave, retrowave, outrun and other synthesizer music styles with roots in the 1980’s. The set offers a good mix of more vintage style sounds to enrich your tracks.

The sounds are designed with passion. I hope you enjoy them, and let them inspire you to create some wonderful music!

Musically yours,

**Krezie Sounds**

## License Agreement / Terms of Use:

The following is a legal agreement between Krezie Sounds and you; the end user.

By downloading the soundset you obtain a non-transferable license to use the sounds in your own works, and you agree to the following terms of use:

### **You may:**

- Use the non-isolated sounds royalty free for commercial and non-commercial music compositions.

### **You may not:**

- Resell, give away, distribute the patches / license in any way or form.
- Sample the isolated sounds for resell or distribution in a sound library or other package.

## Disclaimer:

- Usage of the soundset is at the users own risk. Krezie Sounds cannot be held responsible for any damage whatsoever by using the soundset.  
Always familiarize yourself with the patches before you play them at loud volumes.

## Installation:

- The ZIP file for this soundset contains this user manual and a folder “Krezie Synthwave” containing the preset files.
- **Installing the soundbank:**  
Copy the folder “Krezie Synthwave” to the default preset folder for TAL-U-NO-LX.  
If you don’t know where the preset folder resides, you can find it by opening the menu in TAL-U-NO-LX, and clicking on the “Show presets folder...” menu option.
- Please consult the user manual for tips on making the most out of the presets in this soundset.

## Tips:

- To protect your ears and gear: familiarize yourself with the patches before you play them at loud volumes.
- Where applicable the presets come with modwheel assignment for modulating the sounds.
- The TAL-U-NO-LX software synthesizer is equipped with a characteristic chorus effect module which is used with a lot of the sounds, but to make the sounds shine a little more consider the use of a little reverb, delay or other effect in the effect chain of your DAW.
